

## Three families of cryptography and common algorithms

### Symmetric keys

same key to encrypt and decrypt

**DES**

**TripleDES**

**AES**

**RC5**

### Public-key crypto

public/private keys and key exchange

**RSA**

**Elliptic Curve**

**Diffie-Hellman (KE)**

### One-way hash

fingerprint, infeasible to reverse

**MD5**

**SHA-1**

**SHA-256**
